

AMBRA
GENTILE

PROFILO

"People say I am a fighter, strongly committed to my goals, but my mind is wide open, always keen on meeting people, knowing different cultures and establishing connections. Maybe this is the reason why I am interested in everything concerning communication. I like to understand what people desires, supporting them to communicate what they have to say and make sure their purposes can realize. So I figured why not do it for work? Listen, think, arrange!"
